

## Academic Planning Form

Please meet with your faculty advisor to complete this form. After your advisor signs the completed document, please upload it to your advising application in Global Tools. If your advisor is unavailable, another faculty member in your department may sign in their place.

Plan out the distribution of your remaining major, minor, concentration, general education, and elective coursework. You need not list specific class titles, except in the case of key major or minor requirements. Click the black triangle to select the requirement type.

Keep in mind that a full-time course load on an off-campus study program can range from three to seven courses due to different approaches to course weighting, and may equal 15-17 semester hours. Use this form to guide your choice of potential OCS programs, to determine whether the courses they offer match with your requirements for graduation.
